

# Water DTU 3<sup>rd</sup> Partner Seminar, Technical University of Denmark, May 23<sup>rd</sup>-24<sup>th</sup> 2017

Water DTU is the virtual Center for Water Activities at DTU, which aims to increase the quality and extent of research, innovation and education within the water field at DTU by utilising synergies across departments – making DTU a stronger partner for external collaborators.

## May 23<sup>rd</sup>: Water in an international context (½ day)

Are we getting the best out of international synergies covering research, development and innovation? In this year's seminar we will focus on strengthening of synergies in an international context through Water DTU departments and partners.

### Tuesday May 23<sup>rd</sup> 12:30-17

#### 12:30 Opening session

Welcome, Introduction to Water DTU and the Partner Seminar

*Dean of Research Katrine Krogh Andersen*

*Center leader Professor Peter Steen Mikkelsen, DTU Environment*

#### 12:45 Session with presentations

Presentations on Internationalisation and the synergies in the water sector  
Session Chair: Berit Godskesen, DTU Environment

*Morten Løber, Danish Confederation of Industry, DCI's perspective on internationalisation in water*

*Kristian Mølhave, DTU Nanotech: Innovation Workshops in collaboration with KAIST (South Korea) and NTU (Singapore)*

*C. T. Aravindakumar, Mahatma Gandhi University: Emerging strategies to monitor water pollution and developing technologies for water treatment*

#### 13:40 Break and Participant photo

#### 14:10 Session with presentations

Presentations on Internationalisation and the synergies in the water sector  
Session Chair: Prof. Peter Bauer-Gottwein, DTU Environment

*Peter E. Holm, University of Copenhagen: Water and environment education and research in the Sino-Danish Center (SDC), Beijing*

*Peter Bauer-Gottwein, DTU Environment: Synergies between his research and the SDC program*

*Mads H. Odgaard, DTU AIS, Perspectives on the future DTU Technology Foresight project on water*

#### 15:10 Break

#### 15:40 Panel discussion

Panel discussion: Internationalisation

*The speakers and Anne Mette Holt, Office for Research and Relations*

#### 16:30-17:00 Round-off day 1 with following reception

## May 24<sup>th</sup>: Workshops (1 day)

Choose between 2 workshops in 4 parallel tracks – discuss collaboration possibilities. If we work together we benefit from it – and even more internationally.

### Wednesday May 24<sup>th</sup> 9:30-15:30

9:30	Welcome and introduction to the day (Glassalen)			
	Track 1	Track 2	Track 3	Track 4
9:45 (incl. 30 min. break)	WISE Experiences & Funding bazar (Room S9)	International. colla- boration on water and membranes (Room S4)	Microplastic: clarifying common interests & areas of future collaboration (Room S10)	Innovative toolboxes for climate resilient planning and design of combined water solutions in cities (Room S16)
12:15	Lunch (Glassalen)			
13:00 (incl. 30 min. break)	WISE Needs from stakeholders (Room S9)	Closed workshop (Room S4)	Closed Workshop (Room S16)	
15:30	End of seminar			

For further description of the workshops, see the homepage

## Sign-up and programme updates

See the detailed programme and how the workshop planning progresses, and **register by May 22<sup>nd</sup> 2017** on [water.dtu.dk](http://water.dtu.dk)

**The seminar takes place in Glassalen, Building 101, DTU Lyngby**
